

GWP at the Budapest Water Summit 2013

8-11 October 2013

Wednesday, 9 October 2013

Youth Forum World café

Time: **16:00 - 17:00**

GWP Senior Knowledge Management Officer Danka Thalmeinerova will moderate the Forum.

Youth Forum Award Ceremony

Time: **17:30**

Venue: **Summit's plenary hall**

Presentation of water and youth awards: Stockholm Junior Water Prize 2013, Danube Box and Danube Art Master. The International winner of [Danube Art Master](#) contest, organised by GWP Central and Eastern Europe and the International Commission for the Protection of the Danube River, will be awarded out of national finalists from 13 countries of the Danube River basin.

High-level panel discussion: **How to serve a growing population with water in a changing climate?**

Mr Apichart Anukularmphai, President of the Thailand Water Resources Association, Thailand and former Southeast Asia Technical Advisory Committee Member is one of the Panel members.

How to meet the challenges of adaptation and resilience in face of a growing population and changing climate? How to find complex solutions for pollution prevention, soil and groundwater protection, food security, disaster risk management, including floods and droughts and man-made disasters? Is there a need for more emergency water storage? How to incorporate recycling in the economy?

Good Water Governance: Sustainable Development. High-level panel discussion: **Good Governance: is it Existing?**

Science Forum, Session 2

Lekan Oyebande, Chair of the Technical Committee, GWP West Africa is one of the Panel members.

High-Level Water-Energy-Food Nexus Evening Panel

BWS, special evening session

Dr. Mohamed Ait-Kadi, Chair of the Technical Committee, GWP, is one of the panel members.

A particularly important emerging issue related to water is the water-energy-food nexus. The objective of the panel session is to build on the outcome of the relevant conference, held in 16-18 November, 2011, in Bonn, Germany, in order to take stock and to move the agenda forward with a view to define cross-cutting SDGs.

Thursday, 10 October 2013

Good water governance, High-level panel discussion: How to govern water wisely with SMART SDGs?

BWS, Session 3

GWP Chair Dr. Ursula Schaefer-Preuss is one of the panel members.

How to move towards SMART SDGs linked to water data, data exchange, monitoring and assessment, stakeholder participation in preparing water policies, integrated institutional strategy in planning and implementation, trans-boundary river basin and aquifer management, local, regional and international cooperation, capacity development, education, research?

Striving for Universal Access to Water and Sanitation, High-level panel discussion: Is there a Sustainable Future?

Science Forum, Session 3

Margaret Catley-Carlson, GWP patron and former chair will moderate the panel discussion.

Friday, 11 October 2013

Financing Water and Sanitation SDGs

Civil Forum, Session V
