

# RAINWATER

CATCH IT WHEN YOU CAN!

Save Rainwater

How can you use rainwater?

Some of the ways rainwater can be used:

- Drinking (Ensure water is clean before drinking)
- Cooking (Ensure water is clean before use)
- Bathing
- Flushing the toilet
- Washing clothes
- Watering the garden
- Water for pets/animals
- Washing the car

Let's make more use of rainwater!

Global Water  
Partnership  
Caribbean

The Global Water Partnership-Caribbean (GWP-C) in 2010 developed a Rainwater Harvesting Model to revive interest in rainwater harvesting and to help water deprived communities safely collect and use rainwater.
