Working Toward A Water Secure Caribbean

Global Water Partnership-Caribbean (GWP-C) is a working partnership among all stakeholders in water management within the Caribbean region and was formally launched in Tobago in June 2004.

It is the Caribbean Regional Water Partnership of the Global Water Partnership (GWP) Organisation, a global network of partners all working toward water security.

Our mission is to support Caribbean countries in the sustainable management of their water resources and to fully promote and apply an Integrated Water Resources Management (IWRM) approach at the community, national and regional levels.

GWP-C continually strives to improve water governance in the Caribbean region and currently has 59 partners in 20 Caribbean territories which encompass the English, Spanish, French and Dutch Caribbean.

For information on GWP-C and becoming a partner, visit our website at www.gwp-caribbean.org.

The GWP-C Secretariat: c/o NIHERST
43-45 Woodford Street, Newtown, Trinidad and Tobago, W.I.
