

Integrated Drought Management Programme in Central and Eastern Europe National Consultation Dialogues

OBJECTIVE

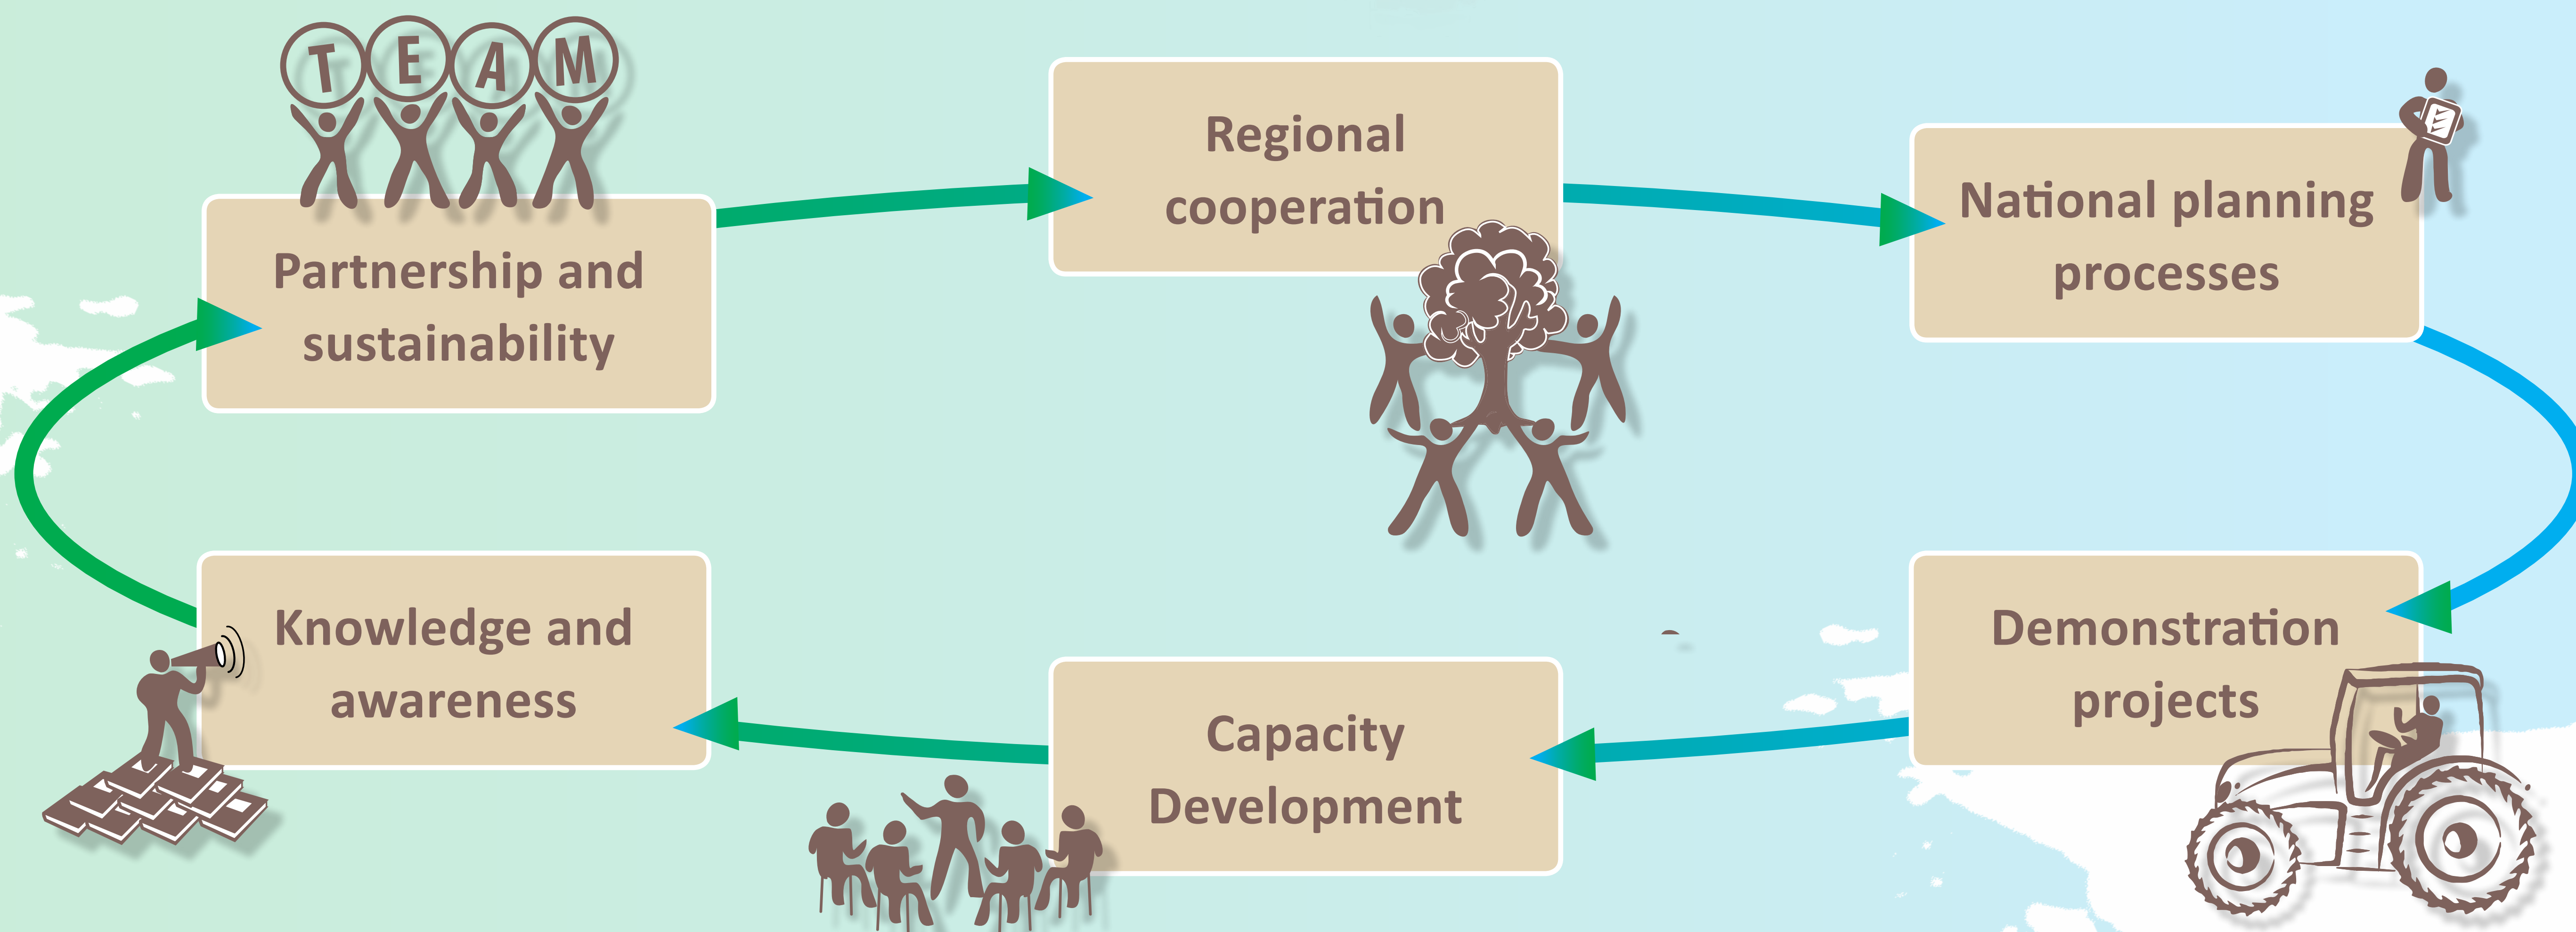

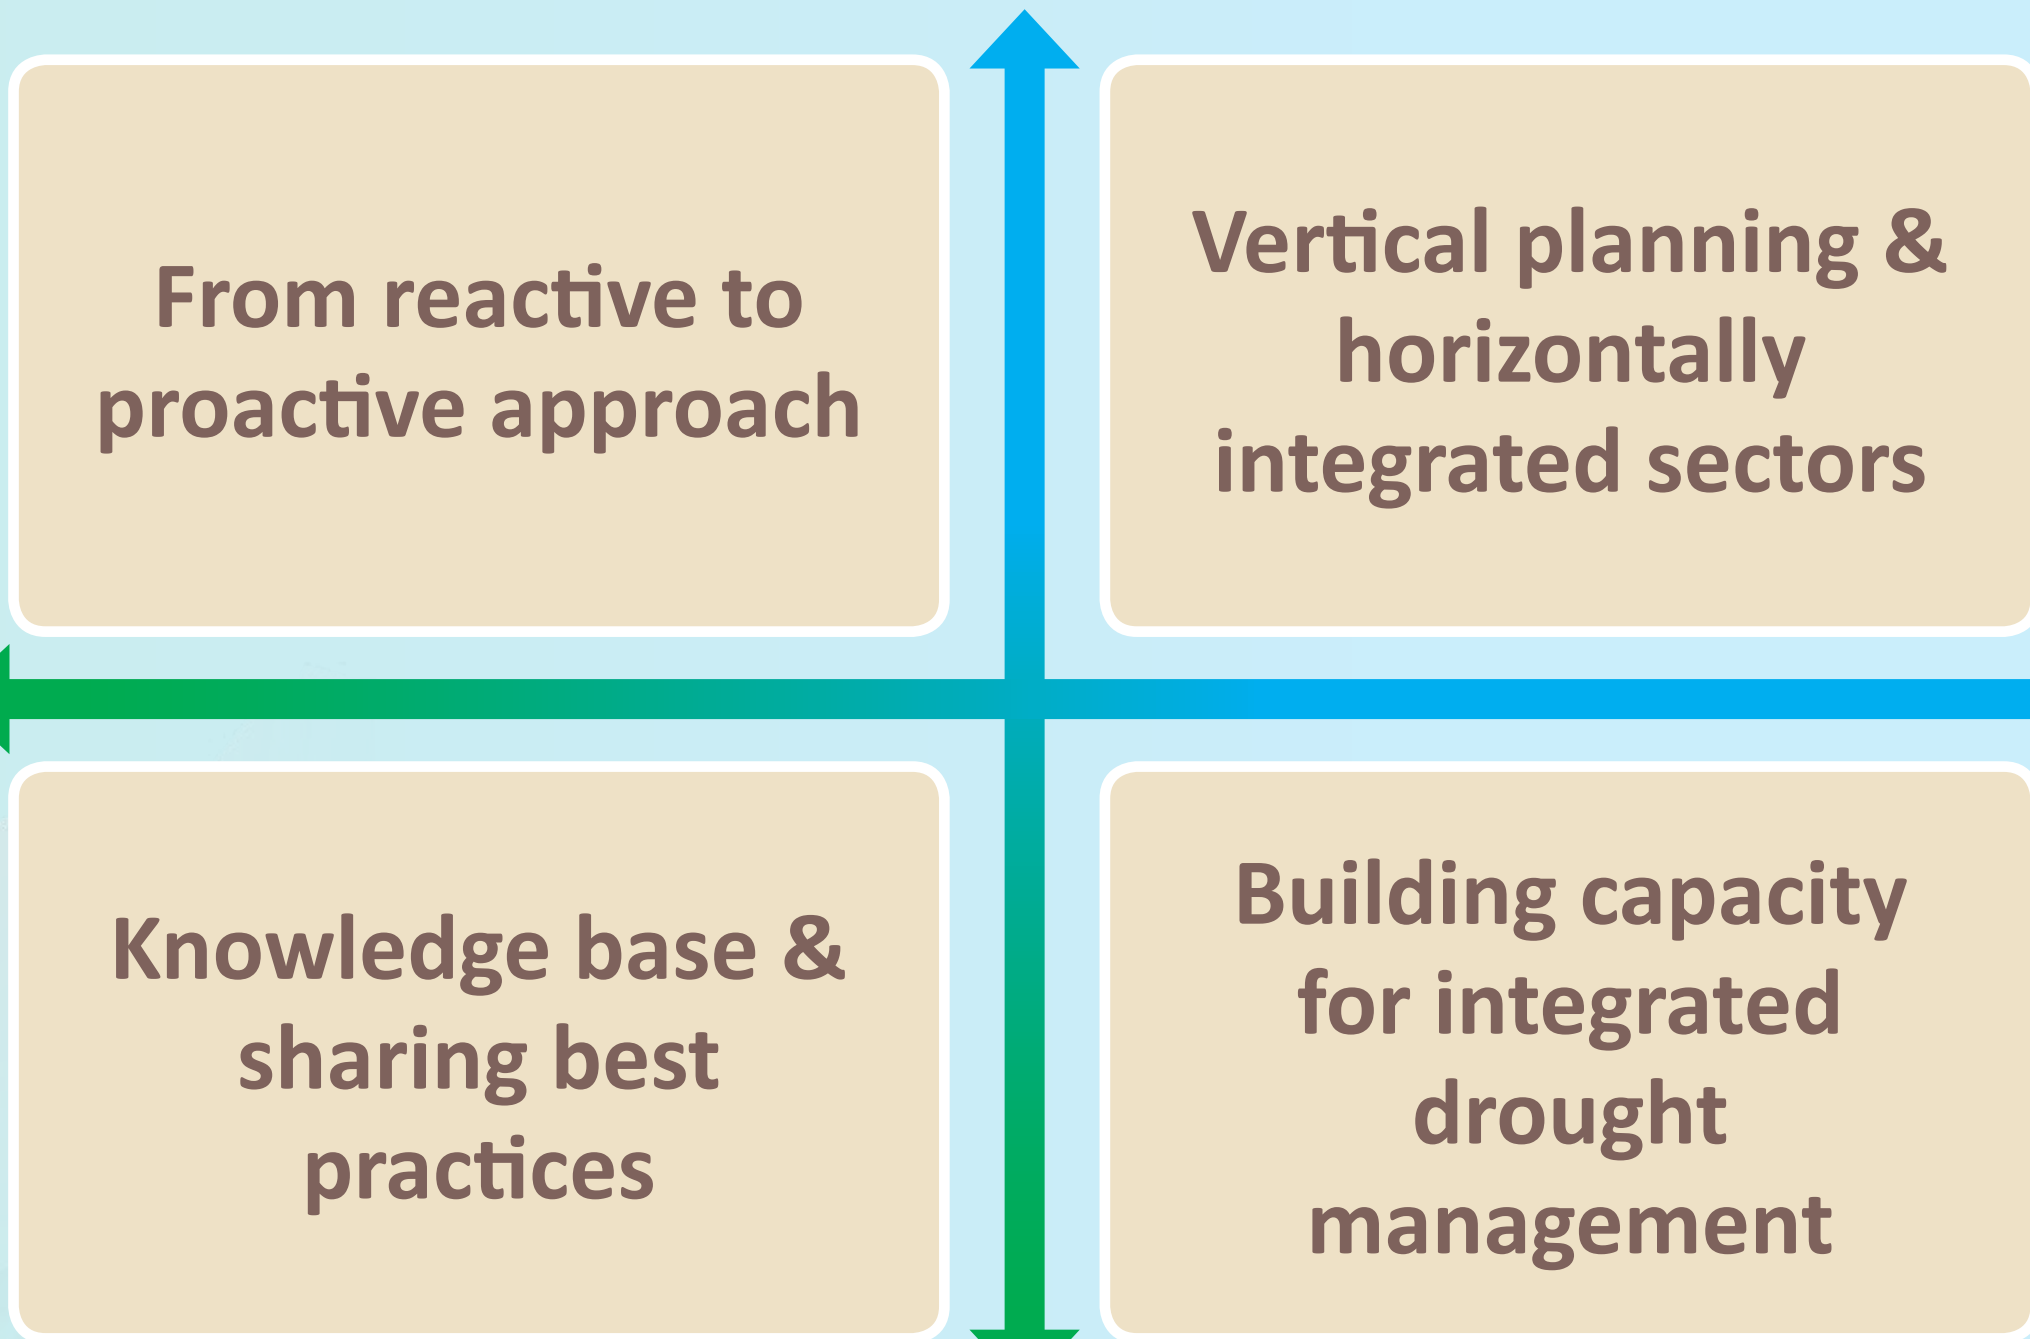

Increase the capacity of the Central Eastern Europe region to adapt to climatic variability by enhancing resilience to drought.

RESULTS

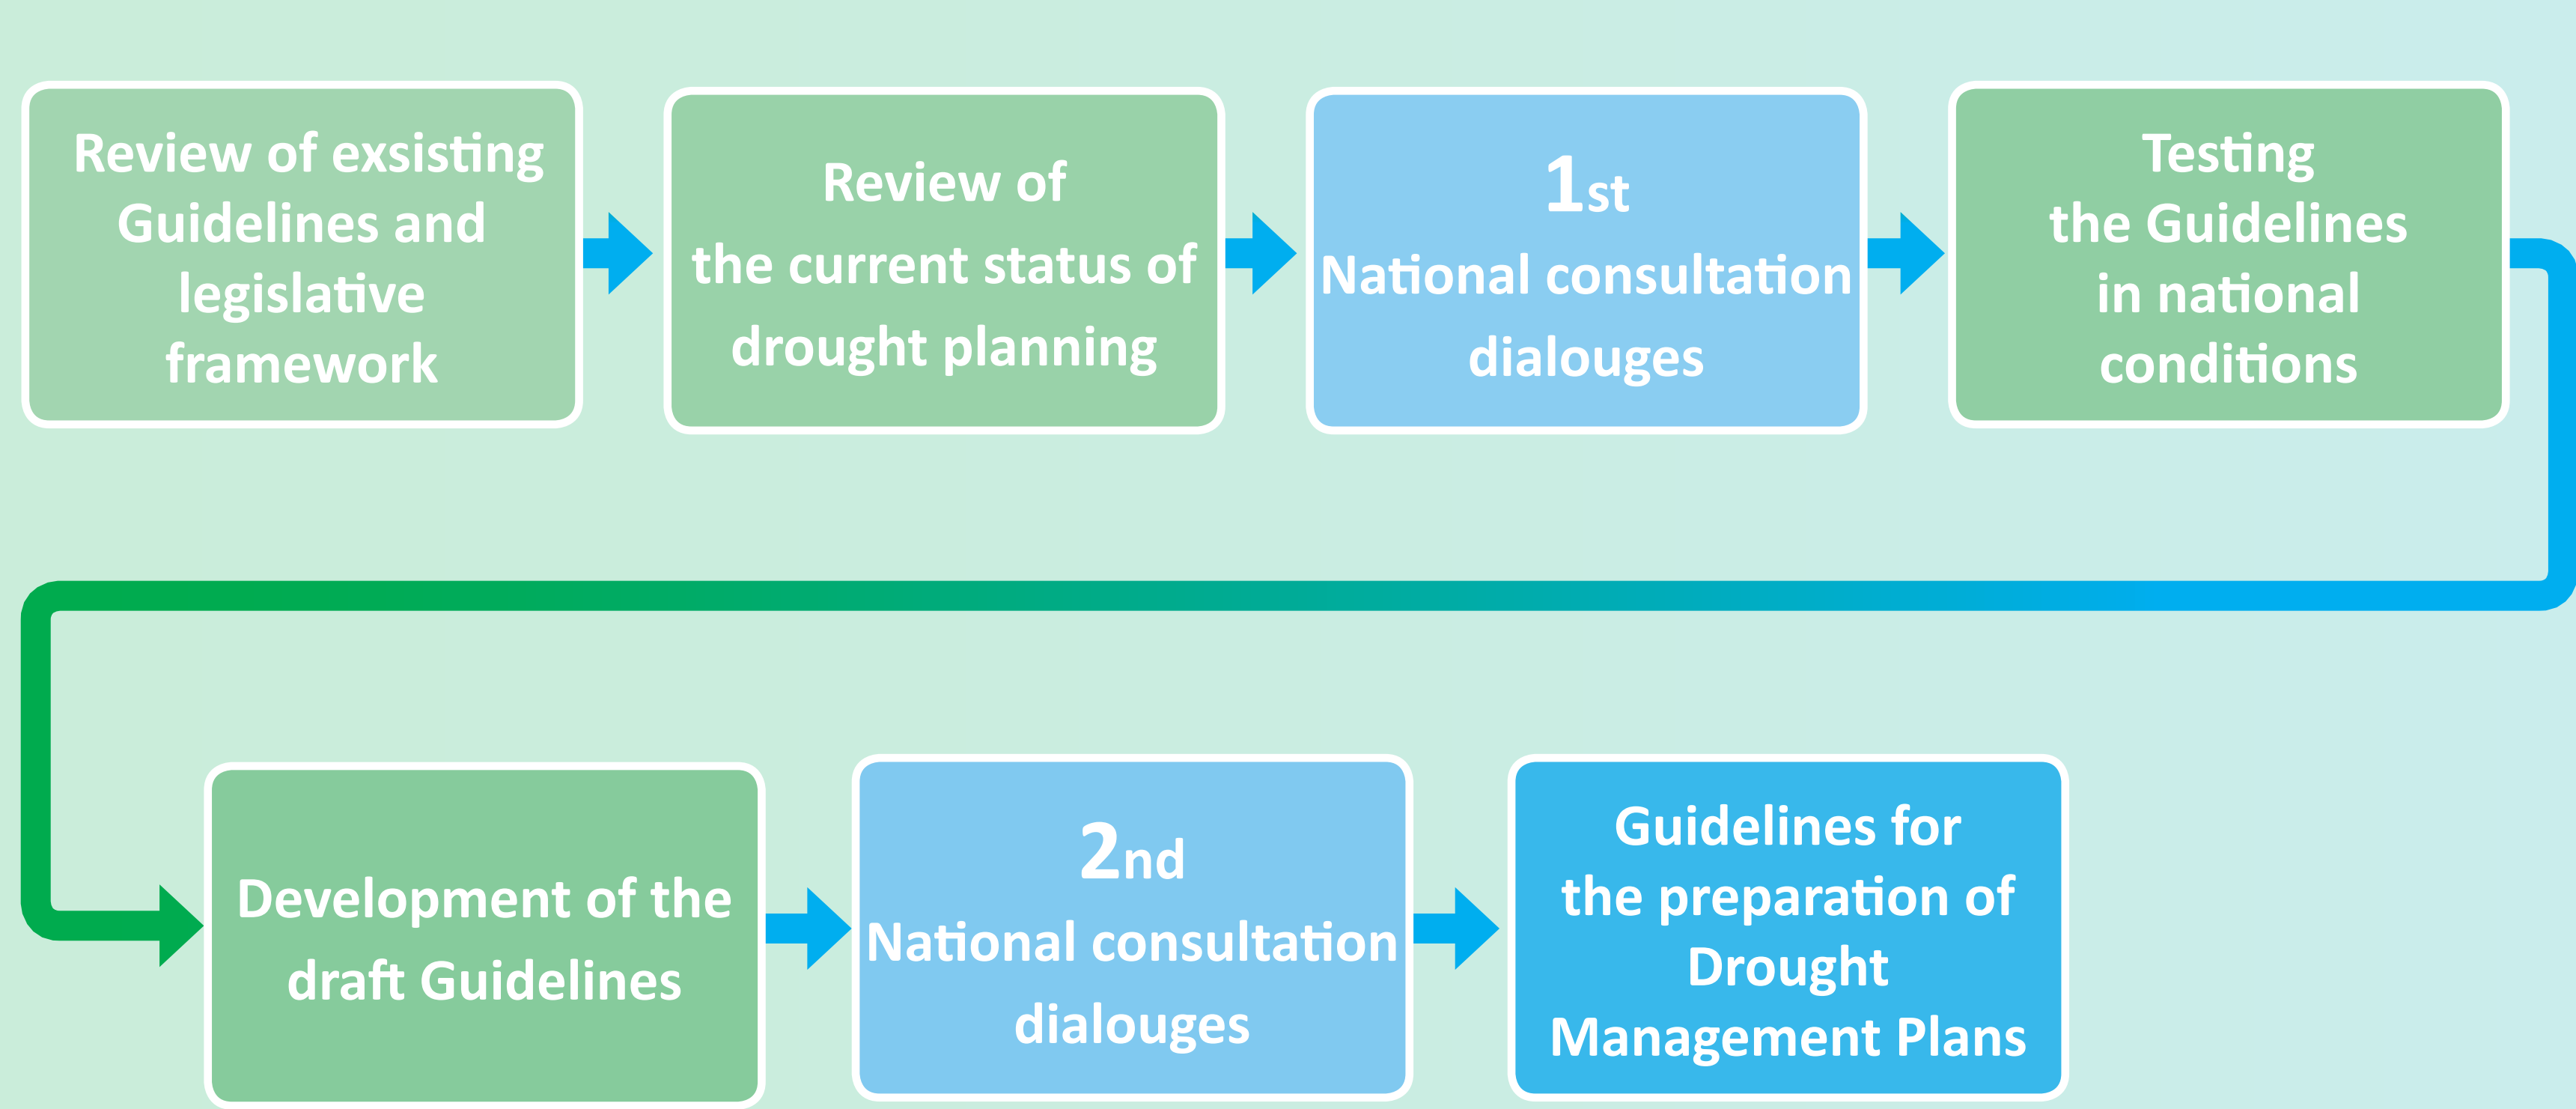

- ~ Guidelines for preparation of the drought management plans within river basin management plans according to European Union Water Framework Directive
- ~ National consultation dialogues to discuss preparation of drought management plans
- ~ Compendium of good practices
- ~ Drought information exchange platform
- ~ Demonstration projects testing innovative solutions for better resilience to drought
- ~ Capacity building trainings and workshops on national and regional levels

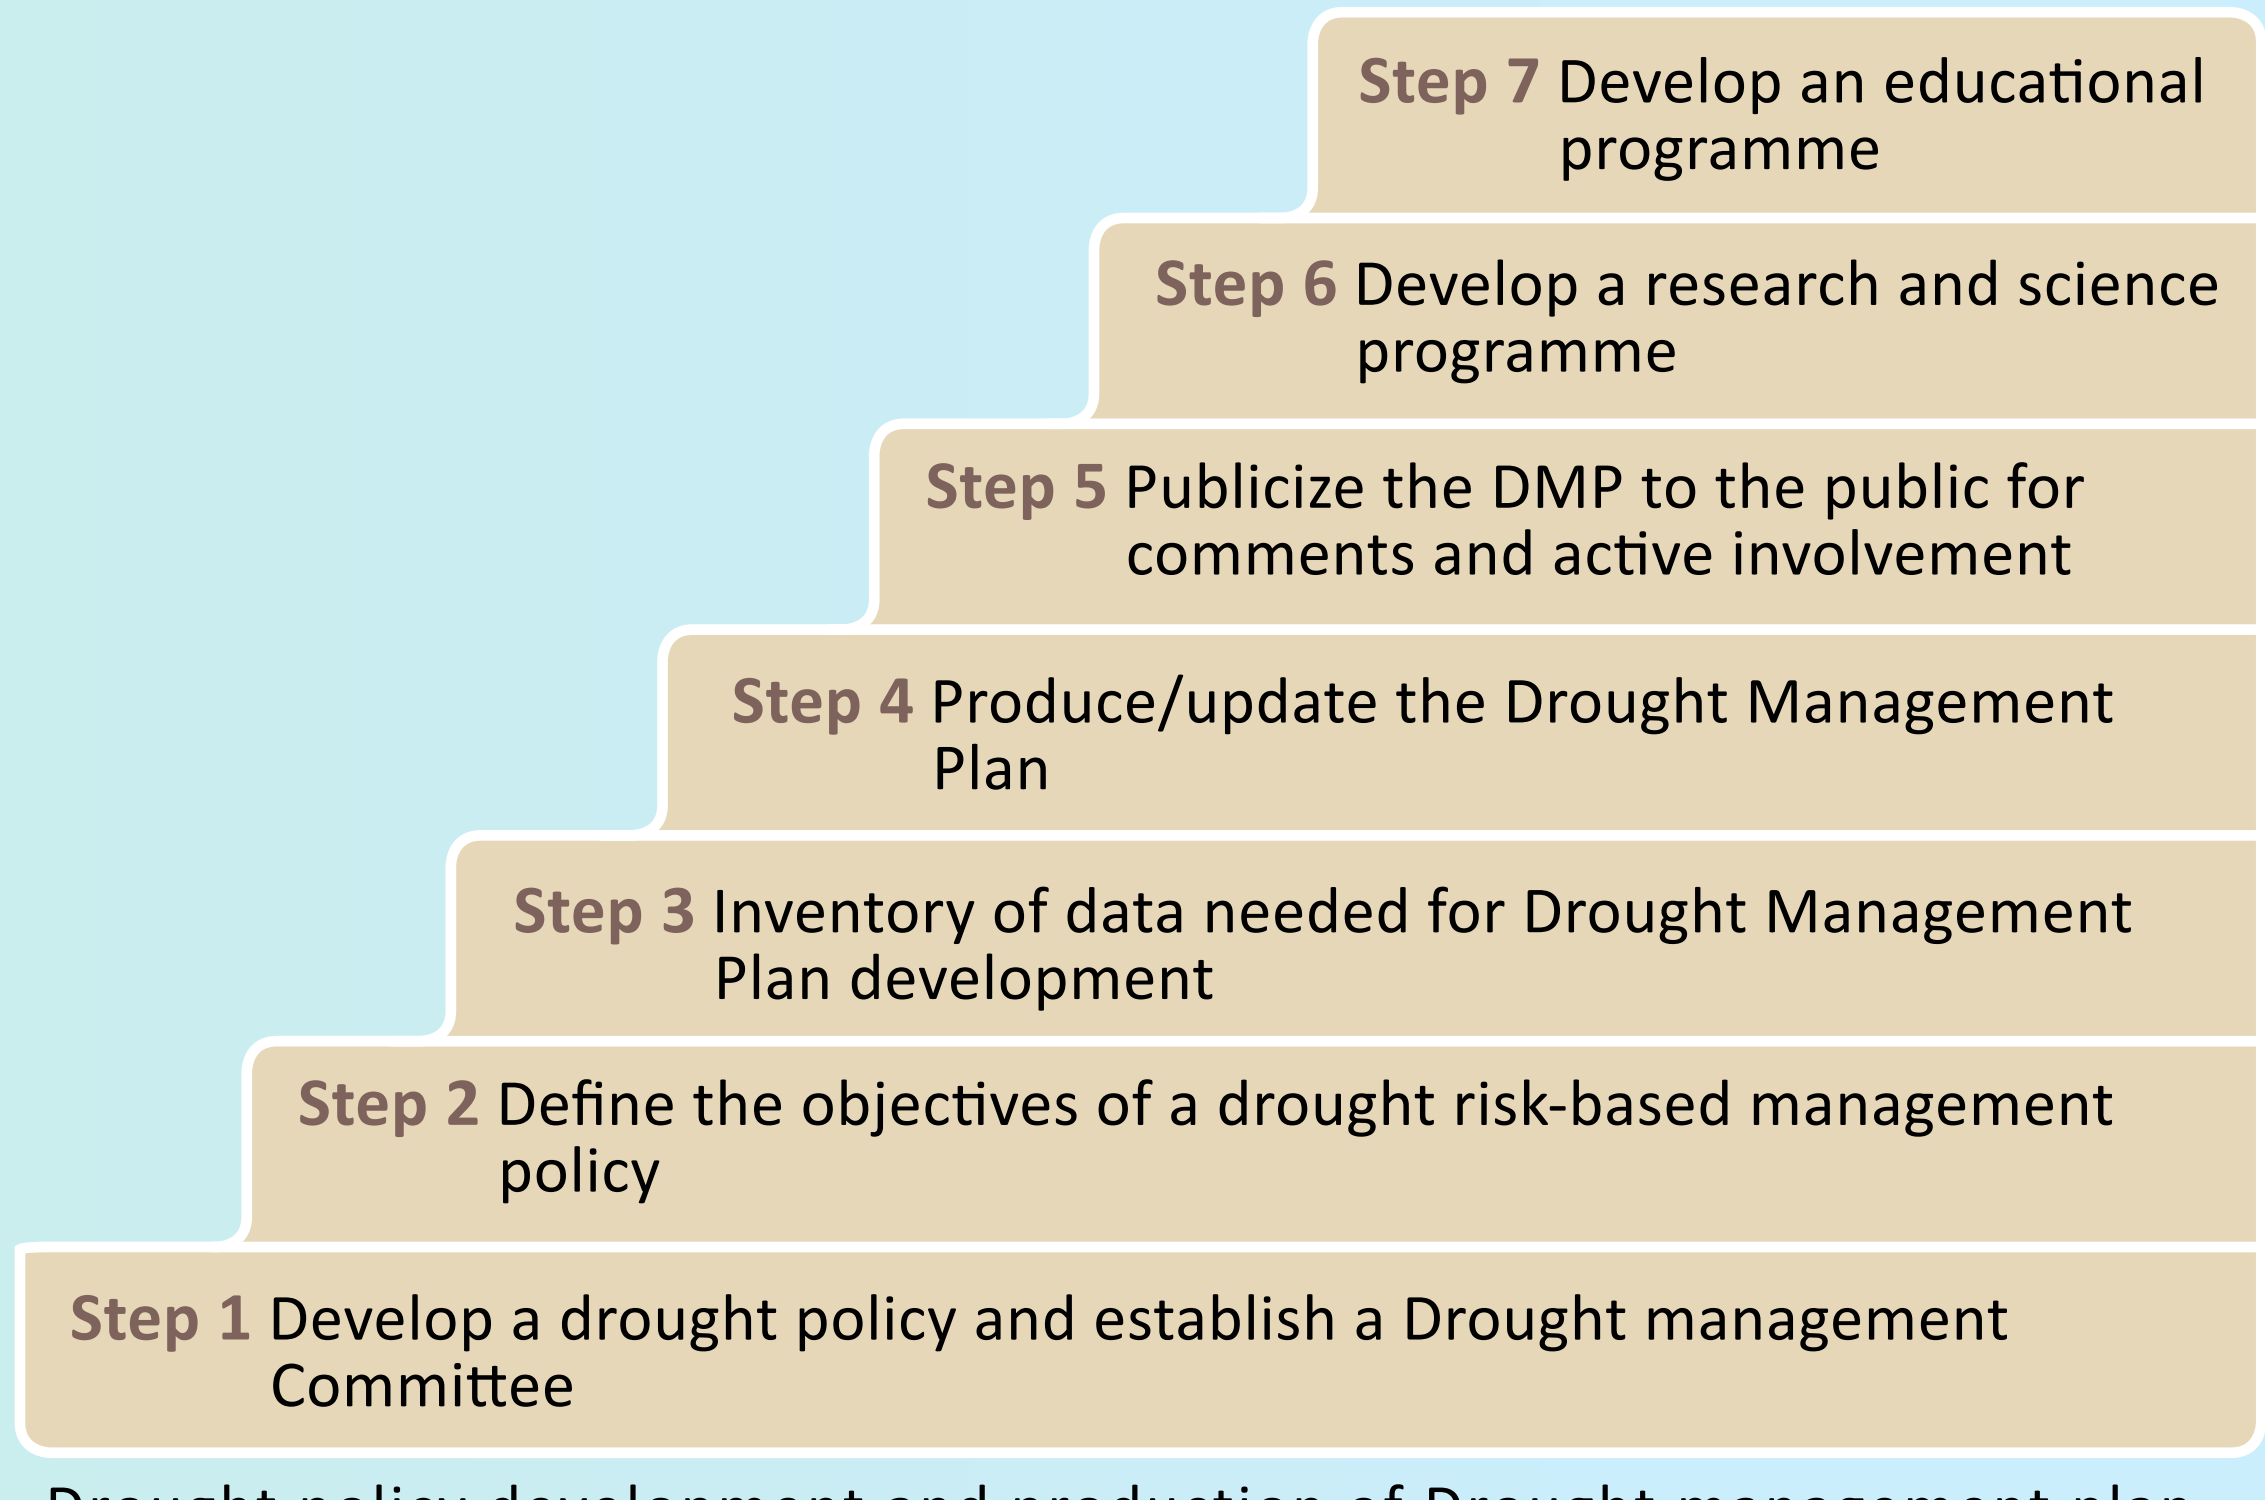

4 Key principles of the programme

Process of preparation of the Guidelines

How to integrate drought into planning process for development of the RBMPs?
