

India Water Partnership participating in Aquatech India -2014

Aquatech India 2014 was held from 6 to 8 May 2014 at Pragati Maidan, New Delhi under the auspices of Amsterdam RAI and Inter Ads-Brooks Exhibitions (India) Pvt. Ltd. India Water Partnership (IWP) supported Aquatech 2014 as a technical contributor and knowledge partner.

The event provided a platform to raise awareness on water supply and waste water treatment practices in India. Aquatech India exhibited high quality water technologies and organized dialogues through panel discussions on Improve Water Services Delivery on Domestic, Irrigation and Industries; Water Quality, Ground Water Management and Water Loss Management, Water Sustainability for All, Water Technologies, Innovations and Economics. The presenters include the National and International experts from Industrial and government sectors, Investors, Project developers and Engineers.

As a technical supporter of the event, few key speakers represented the IWP. The speakers included Mr D. K. Manavalan; Retired from Indian Administrative Service and the Vice-President of GWP India, Mr S. C. Jain; Regional Council Member for GWP South Asia and former Joint Secretary, IWP, Mr Ravindra Sewak; Country Director of Safe Water Network India and a representative of IWP and officials from IWP partners - Mr D. B. Panse and Mr T. Venkataraju from Indian Water Works Association and Dr D. N. Kulkarni from Jain Irrigation Systems Ltd.

Brochures on IWP, GWP Strategy 2014-2020, GWP-South Asia Water and Climate Resilience Programme (WACREP), documents and newlines were exhibited at the IWP stall which was managed by Mr Anas Asif, Ms Pritha Bhattacharya and Mr Mangla Rai. More than 300 national and international participants visited the exhibition stall within the three days event.
