

## **Water, Climate Development Program (WACDEP)**

*Support to integration of water security and climate resilience into development planning  
and decision making processes*

*Draft Final Draft*

**6<sup>th</sup> WACDEP Technical Coordination Workshop  
15<sup>th</sup> September – 19<sup>th</sup> September 2014, Harare, Zimbabwe**

*Hosted by GWP Southern Africa*

## 1.0 Background

In November 2010, during the 3rd Africa Water Week, the extra-ordinary session of the African Ministers' Council on Water (AMCOW) adopted a decision recommending that the Global Water Partnership (GWP) and partners operationalise the Water, Climate and Development Programme (WACDEP). The programme was developed as response to the January 2009 AMCOW request for GWP to support the implementation of the 2008 African Union Sharm el-Sheikh Declaration on Water and Sanitation.

The WACDEP aims to integrate water security and climate resilience in development planning processes, build climate resilience and support countries to adapt to a new climate regime through increased investments in water security. By building climate resilience, the initiative will contribute to peace building and conflict prevention, support pan-African integration and help safeguard investments in economic development, poverty reduction and the Millennium Development Goals (MDGs). The programme responds directly to the commitments expressed by African Heads of State in the Sharm el-Sheikh Declaration on water and sanitation.

The WACDEP supports implementation of AMCOW's triennial work program for 2010-2013. Initially, WACDEP will be implemented in eight countries: Cameroon, Ghana, Burkina Faso, Mozambique, Zimbabwe, Burundi, Rwanda and Tunisia; and four river basins: Volta Basin, Lake Chad, Lake Victoria-Kagera, and Limpopo Basin and 1 Transboundary aquifer-the North Western Sahara Aquifer System.

**The goal** of the programme is to promote water as a key part of sustainable regional and national development and contribute to climate change adaptation for economic growth and human security.

**The overall objective** is to support integration of water security and climate resilience in development planning and decision making processes, through enhanced technical and institutional capacity and predictable financing and investments in water security and climate change adaptation. **The expected outcomes** are;

- Water security and climate resilience integrated in development planning and decision-making processes
- Capacities of partnerships, institutions and stakeholders enhanced to integrate water security and climate resilience in development planning and decision-making processes
- "No regrets" investment and financing strategies for water security, climate resilience and development formulated and governments begin to implement them. In addition, fundable projects (infrastructure-related) for water security, climate resilience and development defined and shared with development banks

WACDEP was launched at the 2011 Stockholm World Water Week. Programme implementation began in July 2011 with an inception phase to introduce the programme at regional and country level and also define key actors and priority activities for detailed implementation from 2012 onwards.

## 2.0 Workshop format and structure

To catalyse exchange of lessons, knowledge sharing and technical coordination of WACDEP implementation among the GWP regions, Technical Coordination Workshops are convened as part of the WACDEP Africa programme.

The 6<sup>th</sup> WACDEP Coordination workshop will be held in Harare, Zimbabwe 15<sup>th</sup> – 18<sup>th</sup> September 2014. The workshop will involve the following key meetings held over the 6 days:

Dates	Meeting	Expected Participants
15 – 17 September	<ul style="list-style-type: none"><li>WACDEP Africa Technical Coordination and Annual Programming Meeting</li></ul>	<i>GWP Regional Coordinators, WACDEP Regional Programme Officers, WACDEP Country Programme Managers/Officers, GWPO, AMCOW Sec, WACDEP Reference Group Members, WACDEP CU, Communication Officers</i>
18 Sept – 19 Sept	<ul style="list-style-type: none"><li>Inception Workshop on Project Preparation</li></ul>	<i>Project Preparation National Consultants, Regional and Country Programme Manager/Officers, GWPO, WACDEP CU</i>
15 – 16 Sept	<ul style="list-style-type: none"><li>Financial Managers Planning Meeting</li></ul>	

### 2.1 WACDEP Africa Technical Coordination and Annual Programming Meeting (15 – 17 September)

The 6<sup>th</sup> Technical Coordination Meeting comes at a time when the project has gone past the halfway mark. The regions and the countries are now implementing a number of the work packages and ensured linkages and synergies of the processes being implemented to support government institutions.

This meeting is aimed at sharing information and building the capacity of the managers on a number of the technical issues related to the programme implementation.

**Specifically, the workshop will aim to achieve the following:**

- Share lessons on progress of the implementation of the WACDEP in the countries and regions
- Discuss work going on in investment planning and clarify how this can be better approached
- Discuss the different innovative approaches that are being used by the countries in building community resilience through implementation of demonstration projects
- Develop and finalise 2015 WACDEP Annual Workplans for the region and countries
- Discuss progress and challenges in the implementation of the capacity development programme.
- Share lessons from country missions by the Reference Group (RG) and recommendations for future contributions from the RG

## 2.2 IDMP Work Programming Workshop

The IDMP Work Programming Workshop aims to focus on the needs of the IDMP HOA and IDMP WAF project managers to prepare a three year Work Programme for the IDMP HOA and IDMP WAF projects as a whole and the detailed 2015 Annual Work Plan. The session will clarify the GWP programme development context and project management tools. It will be an opportunity to discuss the first findings from the assessment of needs and gaps the IDMP regional programmes have identified already and are aiming to address, as well as the impacts and outcomes the IDMP HOA and IDMP WAF are aiming to achieve. Progress is expected to be made to develop the Project Document with high level activities for the next three years and the detailed activities of the project for 2015.

## 2.3 Project Preparation Training Workshop

A Finance Expert has been recruited and at the national level Consultants have been brought on board to support the implementation of WP 4. A training and planning workshop is being organised on the 18<sup>th</sup> and 19<sup>th</sup> of September – the aim of the meeting is to ensure that the national consultants and project managers are appraised with the work to be carried out under WP 4.

## 3.0 Workshop Logistics

The Technical Coordination Meeting will bring together Regional Coordinators, Reference Group members, WACDEP Regional and Country Programme Managers/Officer, CWP Chair or Coordinator and AMCOW/Govt Focal Point WACDEP at country level and Communication Officer).
