Regional GCF Workshops organised by GWP and partners

- Africa Development Bank
- African Water Facility (AWF)
- Africa Climate Change Fund (ACCF)
- Africa Development Bank (AfDB)
- Inter-American Development Bank (IDB)
- Infrastructure Consortium for Africa (ICA)
- Climate Resilience Infrastructure Development Facility (CRIDF)
- Development Bank of Southern Africa (DBSA)
- Asia Pacific Adaptation Network (APAN)
- Development Bank of Southern Africa
- Regional collaboration with JICA, UNICEF
- Technical inputs by the GCF and WMO

Within 12 months, 2018-2019....we mobilised

77 countries

4 continents

132 project ideas

320 participants

DAEs

NDAs

Water Ministries/agencies

Laid the foundation for Continental Partnerships for Development of Climate Resilience Water Projects

TRANSFORMATIONAL CLIMATE RESILIENCE WATER PROJECT CONCEPTS IN AFRICA FOR THE GREEN CLIMATE FUND

Africa Water Investment Programme (AIP)

REPORT OF THE INAUGURAL TECHNICAL WORKSHOP ON PREPARATION OF CLIMATE RESILIENT WATER PROJECT CONCEPTS AND PROPOSALS

Technical Workshop on Project Preparation for Transformational Climate Resilience Water Project Concepts in Asia workshop

Technical Workshop on Project Preparation for Transformational **Climate Resilience Water Projects** in the Mediterranean Region for the Green Climate Fund

Global Water Partnership Mediterranean (GWP-Med)

Union for the Mediterranean (UfM)

With the support of the Swedish International Development Cooperation Agency (SIDA) and the GWP Water, Climate and Development Pro-

TALLER PARA LA PREPARACIÓN DE PROYECTOS

Conceptos transformacionales para la elaboración de propuestas ante el Verde para el Clima

Zambia is a key milestone in our project pipeline towards our ambition to support countries on climate investments

Ambition \$135 million

Acceleration
Over 35
countries

Mobilisation

Partners-Partners

GWP Readiness Pipeline: 12 countries, approximately \$ 10 million to enhance GCF Readiness

No.	Country	Funds expected (USD) (TBC)	Progress
1	Zambia	2 185 555	Approved
2	Uganda	1,000,000	Project idea developed
3	Kingdom of eSwatini	1 261 058	Submitted to the NDA
4	Burundi	1,100,011	Submitted to the NDA
5	Sudan	1,322,819	Submitted to the GCF
6	Montenegro	916,375	Reviewing stage
7	Sri Lanka	980,612	Reviewing stage
8	Libya	800,000	Reviewing stage
9	Ecuador	1,000,000	Awaiting nomination letter from NDA
10	Paraguay	1,000,000	Awaiting nomination letter from NDA
11	Tanzania	1,000,000	Awaiting nomination letter from NDA
12	Moldova	1,000,000	Awaiting nomination letter from NDA
	Total	10,119,817	

GWP GCF Investment Project Pipeline: 22 countries, approximately \$ 125 million to enhance climate resilience

Country	Торіс	Accredited Entity	Excecuting Entity	Project Status	amount US\$ (indicative)

GWP supporting 5 countries to enhance NDCs in 2020

Country	Summary of activities	Budget	Status
1. Sudan	A783. Map groups most vulnerable to climate risks. Introduce targeted measures to promote gender equality, preserve agricultural productivity, conserve water resources, inhibit spread of disease.	\$110,300	Project detailed design with government ongoing.
2. Somalia	A762. Establish adaptation baseline (building on reports on food/water security situation etc.) from which future actions will be measured.	\$216,500	Project detailed design with government ongoing.
3. Dominican Republic	A236. Downscale climate change projections for localized rainfall, subsequent flood risks. A241. Taking a basin-scale approach, develop bankable investment portfolios for water resources, livelihoods diversification, resilient agriculture and food security. Include a financial strategy; aim for resource efficiency; outline beneficiary areas/populations.	\$199,500	Project detailed design approved by government. Project manager hired. Technical service provider agency procured.
4. Paraguay	C077. Establish an adaptation baseline.C078. Identify stakeholder priorities for adaptation actions.C079. Define adaptation goals and targets.C080. Develop action plan.	\$318,890	Project detailed design with government ongoing.
5. Ecuador	CO27. Integrate gender perspective into main climate change policies and protocols; draft legal and policy frameworks for implementation.	\$68,970	Project concept TOR approved by government.
Total	Total	\$914,160
