Which white paper theme(s) <sup>3</sup> has the activity contributed to?	Water & Agriculture <input type="checkbox"/> Water & Health <input type="checkbox"/> Water & Equitable Allocation <input type="checkbox"/> Water & Climate Hazards <input checked="" type="checkbox"/>
Type(s) of activities <sup>4</sup> predominantly implemented	Process facilitation <input type="checkbox"/> Capacity building <input type="checkbox"/> Awareness raising <input checked="" type="checkbox"/> Meeting organisation <input type="checkbox"/> Knowledge product <input type="checkbox"/>
Lists of main activities proposed by the projects	Create mass awareness among targeted population and youth groups
Governance processes <sup>5</sup> influenced by the activities	

## Progress Report

Reporting period	March 2016		
Activities planned	Results achieved		
	Number of participants (if relevant)	Actions/decisions really done	
Activity1 Dialogue by water experts		1-Sensitization of relevant stakeholders about mismanagement in water governance, climate change impacts safe utilization of water 2-Young professionals committed that they will play active role in awareness raising, capacity building of other youth, peers and local communities about water conservation and management	
Details of youth organisations that have interacted with and exerted influence within the bodies responsible for water resources decisions			
Progress against project objectives including challenges faced and lessons learned <sup>6</sup> (Difficulties and approaches of solutions)			

Notes:

1. The reporting template has been developed to facilitate consistent and systematic documentation of project results. The information requested contributes to the overall GWP M&E system through which progress towards the achievement of the GWP work programme and strategy is assessed. The reporting procedure of the individual projects should, where possible, feed into the existing regional GWP reporting mechanisms (i.e. monthly and annual reporting processes) managed by GWP's Regional Water Partnerships.
2. Information to be taken from original project concept.
3. Ref. *Propositions de la Jeunesse Francophone – Un Paris pour l'eau*
4. GWP's M&E system uses the following standard classification of activities:
  - Process facilitation – *Activities contributing directly to significant planning / governance reform processes*
  - Capacity building – *Targeted activities with a clear purpose in terms of building capacity*
  - Awareness raising – *General activities designed to raise awareness*
  - Meetings – *Meetings initiated by the project*
  - Participation – *Participation / contribution to activities or processes initiated by others*
  - Knowledge products – *Publications and other products*
5. Refers to formal change processes such as policy development, action planning, institutional reform, etc., through which the desired project impact will be achieved.
6. A critical assessment of what was achieved vs. what was planned
