Details of youth organisations that have interacted with and exerted influence within the bodies responsible for water resources decisions	The whole activities are organized by Togo National Youth Parliament for Water but another local youth organizations such us (Young Volunteer of Environment; Jeunes Verts Togo; Visions Solidaires; AE GEE; etc.) are invited and have participated to the activities.	

Progress against project objectives including challenges faced and lessons learned⁶
(Difficulties and approaches of solutions)

All activities programmed are achieved but the main difficulty is financial one. So, to face this difficulty we are obliged to reduce the number of participants to some activities and asked to some partners to, directly, pay something we need instead of giving us the finance.

Notes:

1. The reporting template has been developed to facilitate consistent and systematic documentation of project results. The information requested contributes to the overall M&E system through which progress. The reporting procedure of the individual projects should, where possible, feed into the existing regional GWP reporting mechanisms (i.e. monthly and annual reporting processes) managed by GWP's Regional Water Partnerships.
2. Ref. *Propositions de la Jeunesse Francophone – Un Paris pour l'eau*
3. M&E system uses the following standard classification of activities:
 - Process facilitation – *Activities contributing directly to significant planning / governance reform processes*
 - Capacity building – *Targeted activities with a clear purpose in terms of building capacity*
 - Awareness raising – *General activities designed to raise awareness*
 - Knowledge products – *Publications and other products*
 - Others
4. Refers to formal change processes such as policy development, action planning, institutional reform, etc., through which the desired project impact will be achieved.
5. A critical assessment of what was achieved vs. what was planned
