

# 2012 BOTSWANA

WATER RESOURCE MANAGEMENT & LINKAGE TO FOOD SECURITY EVENT

WORLD WATER WEEK  
in Stockholm  
SIWI

This seminar is hosted by the Kalahari Conservation Society's IWRM/WE Project and its lead participants; the Department of Water Affairs; Ministry of Agriculture and Water Sector Reforms Unit.

The event analyses the programmes, projects and interventions that the Botswana Government and key stakeholders are undertaking to try to address the challenges related to water management and food security, exploring the lessons learned during the process. This is an open forum, to learn about agricultural challenges in an arid environment with limited water resources.
