

Water Activity Tips for Educators

Incorporate activities on water conservation education into your lessons plans.

Water Club

Form a “Water Club” at school for students interested in learning about water preservation and the environment.

Water Week

Plan a water conservation week at school.

Water Corner

Create a water conservation notice board for the classroom.

List 3 ways to save water?

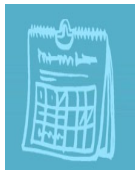

Set water quizzes for your students.

Take students on field trips that can help them learn about water conservation and the environment.

Poster Competition

Have a poster competition at your school with a “Water” theme.

Keep abreast of international Water and Environmental Days on the United Nations’ website www.un.org.

The Global Water Partnership-Caribbean (GWP-C) is a regional network of partners all working toward “A Water Secure Caribbean.”

GWP-C has more than 60 partners in 20 countries spanning the English, Spanish, French and Dutch Caribbean.

Our Mission

The mission of the GWP-C is to support Caribbean countries in the sustainable management of their water resources by the implementation of Integrated Water Resources Management (IWRM): a process of managing water, land and related resources in a way that meets society’s long-term need for water while ensuring that economic and Social welfare is not compromised and there is no harm to the environment.

Visit the GWP-C website to learn more about us.
