

## Integrated Water Resources Management (IWRM) Projects and Initiatives in the Caribbean

**Title:** Water, Climate and Development Programme (WACDEP)

**Organisation:** Global Water Partnership-Caribbean (GWP-C)

**Aims and Objectives:**

The goal of the Water and Climate Development Programme (WACDEP) for the Caribbean is to promote water security and climate resilience in Caribbean states as a key part of sustainable regional and national development for economic growth and human security. The Programme began in October 2012 and is continuing in 2015

The overall objective of the Programme is to support the adaptation of Caribbean states to climate variability and change through the implementation of better water policies, strategies, programmes and water related adaptation actions defined in the Caribbean Community (CARICOM) Implementation Plan for Achieving Development Resilient to Climate Change.

WACDEP is being implemented by GWP-C in partnership with the Caribbean Community Climate Change Centre (CCCCC) and is being executed at the regional and country level.

**Duration:** Start Year: 2012 Completion Year: Ongoing

**Additional Comments:**

**Estimated Cost (USD):**

**Funding Source:** Financing partners of the Global Water Organisation (GWPO) and basket funding including funds contributed through the global level via the GWP Organisation at the regional level through GWP-C, the Caribbean Community Climate Change (CCCCC) or directly to a given country with GWP facilitation and coordination

**Contact Information:** Dr. Natalie Boodram, Programme Manager, Water, Climate and Development Programme (WACDEP), Global Water Partnership-Caribbean, c/o NIHERST, #8 Serpentine Road, St. Clair, Trinidad and Tobago; **Telephone:** (868) 628 1587; **Email Address:** [info@gwp-caribbean.org](mailto:info@gwp-caribbean.org) [nboodram@gwp-caribbean.org](mailto:nboodram@gwp-caribbean.org) **Web Address:** [www.gwp-caribbean.org](http://www.gwp-caribbean.org)

**Key Words:** Climate Resilience; Water Security; CCORAL-Water; Integrated Water Resources Management in the Caribbean; WACDEP Knowledge Platform

**Geographic Coverage:** The Caribbean region

**Sectoral Focus:** Water; Agriculture; Industry; Government; Domestic

**Target Beneficiaries:** Water Professional; Policy Makers; Government

**Outputs:**

Caribbean Climate Online Risk and Adaptation Tool (CCORAL)-Water Initiative including a Sourcebook and Four (4) Information Briefs on the following: A summary of the Sourcebook; Using the CCORAL in the context of water management; Financing Climate resilience in the water sector and; No Low Regret Options for Climate Resilience.

Water and Climate Knowledge Platform which includes two databases: Caribbean Integrated Water Resources Management (IWRM) Expertise Database and the Caribbean Integrated Water Resources Management (IWRM) Projects Database

A modified Rainwater Harvesting Model

Revision and Amendment of the Antigua and Barbuda Water Policy and Roadmap (in progress)

The development of an initiative entitled “Climate-proofing water investment in the Caribbean” including the development of a Climate Change Resilience and Water Security Investment Plan (CCReWSIP) (in progress)
