

## INTERNATIONAL ONLINE TRAINING PROGRAMME ON

# PREPARATION OF SHIT FLOW DIAGRAM (SFD) FOR CARIBBEAN COUNTRIES

**MARCH 21 – APRIL 1, 2022**

**Part A (Online):** March 21 – 28, 2022 | 12 Hours | Platform: Moodle

**Part B (Virtual):** March 29 – April 1, 2022 | 12 Hours | Platform: Zoom | Time: 7:30 – 10:30 AM AST (5-8 PM IST)

**Language:** English

### Background

Excreta flow diagram (also often described as shit flow diagram) offers a new and innovative way to engage sanitation experts, political leaders and civil society in coordinated discussions on identification of areas for intervention across sanitation chain in cities. For more info on SFD and the SFD promotion initiative visit <https://sfd.susana.org/>. CSE - School of Water and Waste (SWW) has organized various online courses and virtual training programmes on preparation of SFDs to various practitioners on the importance of mapping excreta flows using SFD Tool. This training programme is being organised in partnership with Global Water Partnership – Caribbean and will focus on providing practical and hands-on experience on preparation of SFDs.

### Aim

To sensitise and equip practitioners in preparing the Shit Flow Diagram (SFD) Tool, and using it for preparing city-wide sanitation strategies

### Learning outcomes

- Learn about SFDs tool (graphic and report) and the history of their development
- Understand the need for a standardized methodology for SFD preparation
- Hands on experience on preparing a SFD
- Step by step guidance and technical support for preparing and SFD and publishing it on SuSanA global database.

### Training Coordinator(s):

**Dhruv Pasricha**  
 Programme Officer - Urban Water & Waste Management, CSE  
 Mob.: +91 85274 47891  
 Email: dhruv.pasricha@cseindia.org

**Persis Ramirez**  
 Programme Officer  
 Global Water Partnership - Caribbean  
 Email: persis.ramirez@gwp-caribbean.org

### Programme Design

#### Part A: Context-setting and Introduction (Online Platform): March 21 – 28, 2022

- Setting the context and understanding need for SFD
- What is an SFD (Graphic and Report)
- Evolution of SFDs and various application of SFDs

#### Part 2: Action learning (Virtual Sessions): March 29 - April 1, 2022

- Methodology of Data Collection and Analysis; preparation of SFD Graphic and SFD Lite Report, mock studio exercise on preparation of SFD
- Demonstration of SFD Graphic Generator Tool and SFD PI.
- Process of SFD Report preparation incl. peer-review

### Target Participants

- Managers, regulators, officials of water and wastewater utilities; Mid-to-senior level technicians working in NGOs, statutory bodies, government agencies and private sector.
- Individual practitioners/consultants, researchers, academia with prior basic knowledge or relevant experience working in water and sanitation sector.

### Benefits

- Course participation/completion certificate
- One-year free subscription to Down To Earth magazine after course completion
- Join a global network of practitioners of the School of Water and Waste
