*Table 1 – Required qualifications*

	<p>relations, economics, development studies or related fields, or equivalent demonstrated experience</p> <ul style="list-style-type: none"> <li>○ Minimum 10 years of demonstrable experience in the technical area of international waters and project management</li> <li>○ Minimum 3 projects in GEF IW project formulation</li> </ul>
--	--

**Failure to provide the minimum required qualifications is considered ground for disqualification.**

### **Awarding Criterion and Evaluation process**

The Award criterion is the most economically advantageous tender on the basis of best price / quality ratio.

Offers qualified in terms of exclusion grounds and selection criteria will be further evaluated on the basis of the requirements presented under section “Qualification and Experience”, as follows:

(1) Criterion	(2) Weighting (w)	(3) Points of criterion (c)	(4) Score  = (2) x (3)
At least Master’s degree or higher in a relevant field, such as environmental management or science, international relations, economics, development studies or related fields, or equivalent demonstrated experience	20%		
Minimum 10 years of demonstrable experience in the technical area of international waters and project management	40%		
Minimum 3 projects in GEF IW project formulation	40%		
Total	100%		

Scoring for each evaluated section will be made as following:

Expertise and work experience: score starts at 100 points (when minimum requirements are met) and can reach 150 points depending on the description of the participant and the number of projects implemented in excess of those required as a minimum. (100p Base +10p for extra criteria over base up to 50 additional points)

Each Section/evaluation criterion is evaluated autonomously. The final scoring of each evaluation criterion is the outcome of its scoring multiplied by the corresponding weighting factor. The overall score of the technical offer is the sum of the final scoring of all the Sections/evaluation criteria.

The overall score of the technical offer is calculated on the basis of the following formula:

$$B_i = w_1 \times c_1 + w_2 \times c_2 + \dots$$

For the overall score which will determine the ranking of offers, technical evaluation will be weighted with 80%, and the financial offer with 20%.

The final listing of the most advantageous offers will be made on the basis of the following formula:

$$\Lambda_i = 0.8 * (B_i/B_{max}) + 0.2 * (K_{min}/K_i).$$

Where:

- Bmax: the max score received by the best of the technical offers received
- Bi: the score of the technical offer
- Kmin: The cost of the financial offer with the minimum price offered.
- Ki: The cost of the financial offer
- 

The most advantageous offers is the one with the greater value of  $\Lambda$ .

In case of equality of overall scores, the winning proposal is the one whose corresponding technical proposal received the highest rating.
