Terms of Reference for organizing the DRIN DAY celebration 2020

In the framework of:

Memorandum of Understanding for the Management of the Extended Transboundary Drin Basin

GEF Project “Enabling Transboundary Cooperation and Integrated Water Resources Management in the Extended Drin River Basin”

MAY 2020
The Coordinated Action for the implementation of the Memorandum of Understanding for the management of the Drin basin (Drin CORDA) is supported by the GEF Drin Project. The latter is implemented by the United Nations Development Programme (UNDP) and executed by the Global Water Partnership (GWP) through GWP-Mediterranean (GWP-Med), in cooperation with the United Nations Economic Commission for Europe (UNECE). GWP-Med serves as the Secretariat of the Drin Core Group, the multilateral body responsible for the implementation of the Memorandum of Understanding.

Disclaimer: The document adheres to the UN rules and policies regarding the names and international status of countries and/or other geographical areas etc. The use of characterizations, names, maps or other geographical statements in this document in no way implies any political view or positions of the Parties which are executing and implementing the Project.

Introduction - Background

The Drin Memorandum of Understanding

Coordinated action at the Drin Basin level has been absent until the development of the Shared Vision for the sustainable management of the Drin Basin and the signing of a related Memorandum of Understanding (Tirana, 25 November 2011) by the Ministers of the water and environment management competent ministries of the Drin Riparians i.e. Albania, Republic of North Macedonia, Greece, Kosovo* and Montenegro. This was the outcome of the Drin Dialogue coordinated by the Global Water Partnership Mediterranean (GWP-Med) and UNECE.

The main objective of the Drin MoU is the attainment of the Shared Vision: “Promote joint action for the coordinated integrated management of the shared water resources in the Drin Basin, as a means to safeguard and restore, to the extent possible, the ecosystems and the services they provide, and to promote sustainable development across the Drin Basin”.

The ultimate goal of the work in the Drin Basin is to reach a point in the future where the scale of management lifts from single water bodies to the hydrological interconnected system of the Drin Basin, eventually leading from the sharing of waters among Riparians and conflicting uses, to the sharing of benefits among stakeholders.

The Drin Coordinated Action

A process called the “Drin CORDA”, Drin Coordinated Action for the implementation of the Drin MoU, was put in place after the signing of the latter.

Following the provisions of the Drin MoU an institutional structure was established. It includes:

- The Meeting of the Parties.
- The Drin Core Group (DCG). This body is given the mandate to coordinate actions for the implementation of the MoU.
- Three Expert Working Groups (EWG) to assist the DCG in its work:
  - Water Framework Directive implementation EWG.
  - Monitoring and Information exchange EWG.
  - Biodiversity and Ecosystem EWG.

The DCG Secretariat provides technical and administrative support to the DCG; Global Water Partnership – Mediterranean (GWP-Med) serves by appointment of the Parties through the MoU as the Secretariat.

*References to Kosovo shall be understood to be in the context of Security Council Resolution 1244 (1999).
An Action Plan was prepared to operationalize the Drin CORDA. This has been subject to updates and amendments in accordance with the decisions of the Meeting of the Parties to the Drin MoU and the DCG. The DCG and its Secretariat guides the implementation of the action plan while its implementation is currently being supported by the Global Environment Facility† (GEF); see below.

The GEF Drin Project

The GEF supported Full Size Project “Enabling transboundary cooperation and integrated water resources management in the extended Drin River Basin” (GEF Drin Project) is aligned in content, aims and objectives with the Action Plan and the activities under the Drin CORDA.

The objective of the project is to promote joint management of the shared water resources of the transboundary Drin River Basin, including coordination mechanisms among the various sub-basin joint commissions and committees. Albania, The Former Yugoslav Republic of Macedonia, Kosovo and Montenegro are the Project beneficiaries.

The GEF Drin Project is structured around five components:

Component 1: Consolidating a common knowledge base
Component 2: Building the foundation for multi-country cooperation
Component 3: Institutional strengthening for Integrated River Basin Management (IRBM)
Component 4: Demonstration of technologies and practices for IWRM and ecosystem management
Component 5: Stakeholder Involvement, Gender Mainstreaming and Communication Strategies

The Project is implemented by UNDP and executed by the Global Water Partnership (GWP) through GWP-Mediterranean (GWP-Med) in cooperation with the United Nations Economic Commission for Europe (UNECE); GWP-Med is responsible for the realization of the Project. The Drin Core Group is the Steering Committee (SC) of the Project.

† www.thegef.org
**Background: The Drin Day**

The Drin Day is celebrated each year in the period around *5 May (official Drin Day)* in all sub-basins of the extended transboundary Drin Basin under the auspices of the Drin CORDA and the Drin Core Group. The celebration of the Drin Day is established by a decision of the Drin Core Group.

The overarching aim of the Drin Day events is to raise the awareness of local communities and the wider public on the importance of the sustainable management of the Drin River Basin and its ecosystems and to raise awareness amongst the wider public about the declining state of the environment of the Drin watershed and coastal areas and of the benefits of adopting an integrated multi-country approach to their management. The specific objective is to inform and raise awareness amongst specific categories of stakeholders about the aims of the project as well as the Drin’s resources and the necessary action needed to move towards sustainable management of the Basin. Therefore, the plan is to make information, resources and products developed during the Drin Project easily accessible to the public and to promote the benefits and lessons from the Project to key audiences.

The events will act as vehicles to expand people’s understanding, and especially of youth, on the intrinsic values of habitats and species of the region and promote concrete, comprehensive and continuous actions towards the safeguarding the biodiversity of the Drin River Basin and its invaluable ecosystem services.

Activities will take place in the week of 6th of July 2020.

**CALL OF INTEREST**

The Drin Day events will be organized in partnership with NGO or Civil society organizations in the following Drin Riparians: Albania, Kosovo, North Macedonia and Montenegro. One NGO or Civil Society organization will be selected per Riparian Country, four in total.

It is requested that NGOs and Civil society organizations interested to organize Drin Day events, submit an Application Form in which they describe the events that they propose to organize, the actions to be undertaken, the outputs and the envisaged outcomes.

The following terms of reference should be followed in the preparation of the applications:
Type of Activities:
Please note that this year, importance is given to Drin Biodiversity (in line with the main theme of World Environmental day 2020). 2020 is a year for urgency, ambition and action to address the crisis nature is facing; it is also an opportunity to fully incorporate nature-based solutions into global climate action.

Targets:
The proposals should aim to enable the achievement of the following targets:
- The engagement and raising of awareness on the topic addressed of as many people and sectors as possible in two or more Riparians.
- Extensive coverage by electronic media and press.
- Official institutions participate in the opening of the events, i.e. representatives of local authorities, ministries etc.

Activities:
The Drin Day events may include any of the following (the list is indicative and the NGOs applying for support under this call should use these for inspiration):
✓ Joint organization of interactive workshops for children promoting the need for prevention and mitigation measures for protection of biodiversity in the Drin River Basin.
✓ Joint organization of field trips for groups of youth to the Drin River Basin, which could include actions, ‘monitoring’ of biodiversity in the Drin related freshwater bodies, etc.
✓ Joint organization of a seminar/meeting with emphasis on ways to address safeguarding of the biodiversity of the Drin River Basin and its invaluable ecosystem services.
✓ Joint organization of environmental exhibitions/competitions with pictures, videos, presentations, drawings and essays or projects implemented by students inspired by the Drin River and its biodiversity and diversity as a whole.
✓ Launching a survey to capture the views and perceptions of citizens living along the Drin River Basin on protecting biodiversity in the region and use the results as a mean to raise awareness.
✓ Combining the theme with activities (e.g. school visits) relating to Education for Sustainable Development, aiming to supply youth with simple tips on sustainable behaviors and choices in relation to the biodiversity protection in the Drin River Basin.
✓ Launching an awareness raising campaign on social media in order to promote biodiversity, diversity and protection of the environment and water resources in entire Drin Basin.
✓ Etc.

Audience:
The event should be targeted to:
• Institutions including Ministries or other high level governmental authorities;
• Entities/Regional or Local Government Bodies/Authorities; River Basin District Agencies; Protected Area Authorities;
• State owned utilities;
• Private sector (land owners, navigation, industry) including their Chambers;
Tourism Agencies/Boards;
• NGOs, Civil society;
• Local communities;
• Media;
• Educational institutions.

Application:

The Application should include the following sections:

- **Introduction**: Provide here a brief description about the NGO that prepares the application and the Partner NGO(s). You may include in an Annex more extensive descriptions of the applying NGOs.

- **Outcomes**: Describe here the outcomes to be achieved through the proposed activities.

- **Activities**: Describe here the activities to be implemented, the methodology to be followed and actions undertaken for their implementation.

- **Outputs**: Describe here the outputs/products to be developed/prepared through the activities proposed.

- **Annex**
  - Detailed financial budget as an Annex to the Application Form
  - Evidence on Establishment of the NGO (Certificate of registration) in English, translated by a certified translator.
  - A list of similar implemented projects (in the field of environment, water, or nature resources awareness) implemented in the last 5 years

The selection criteria are the following:

**ON/OFF requirements (if not met proposal will be rejected with no further evaluation)**

1. Interested bidders should be NGO or Civil Society organizations based at Montenegro.
2. Experience of the bidder(s) in carrying out similar activities – at least one similar activity.
3. Minimum Establishment period of Bidders should be at least 2 Years proven through official establishment documentation (e.g. not after 01/03/2018)

**Evaluation Criteria: All criteria carry equal weight.**

1. Relevance of Activities (implemented projects, campaigns) proposed to subject of focus (biodiversity).
2. Activities containing educational, awareness raising and field actions.
3. Level of innovation of activities proposed.
4. Awareness raising material planned to be produced for dissemination.
5. Anticipated Outreach (expected number of people engaged within the suggested activities) and anticipated size of area influenced by the suggested activities due to engagement and raising of awareness on the topic addressed.

6. In kind contribution/co-financing. Please state in detail the in kind contribution/co financing for the celebration of the DRIN DAY 2020.

Financial Support:

A maximum amount of USD 6,000.00/- (Six thousand US Dollars) is available as seed funding to support the organization for each selected proposal. One proposal per riparian country will be selected. This amount includes all other costs, income taxes and any other amount payable or cost that may be required for the completion of the work/service. All payments except the advance payment shall be upon reception and acceptance/verification of the deliverables. Of the USD 6,000.00/- at least half the amount will be used for costs related to promotional activities.

Eligible promotional costs include:
- costs for filming and/or broadcasting of the Drin Day events in order to enhance impact;
- costs for printing material;
- costs for purchasing eco-promotional products giving out a biodiversity protection and diversity related message, bags made of organic cotton to replace single use plastic bags, binoculars for bird watching etc.

Payment Terms

Before each instalment the successful Applicant will invoice GWP-MED/MIO-ECSDE (VAT No EL 097813422)
- 60% (USD 3,600) down payment.
- 40% (USD 2,400) after the successful implementation of the activities and the acceptance of deliverables and related expenses by GWP-MED.
### Indicative timeline of actions and deliverables:
The successful applicants should be able to deliver the deliverables included in the indicative list below following the timeline.

<table>
<thead>
<tr>
<th>Deliverables</th>
<th>Corresponding Tasks and steps for preparation</th>
<th>Date of delivery</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>1. Agenda of activities in English and in local languages</strong></td>
<td>1. Preparation of a draft Agenda in English with the program of activities to take place and delivery to GWP-Med.&lt;br&gt;2. Incorporate comments by GWP-Med and preparation of final draft Agenda in English.&lt;br&gt;3. Translation in country language(s) and printing of a number of copies as necessary.</td>
<td>2 June 2020&lt;br&gt;6 June 2020</td>
</tr>
<tr>
<td><strong>2. Invitations to Mayors, representatives of local and regional authorities, cabinet of respective Ministries</strong></td>
<td>1. Preparation of draft Invitation.&lt;br&gt;2. Comments from GWP-Med incorporated, Translation of invitation to country language(s).&lt;br&gt;3. Sending out invitations to Mayors, representatives of local and regional authorities, cabinet of respective Ministries.</td>
<td>2 June 2020&lt;br&gt;6 June 2020&lt;br&gt;13 June 2020</td>
</tr>
<tr>
<td><strong>3. Material to be printed / produced</strong></td>
<td>1. Preparation of the draft text / design etc. and delivery to GWP-Med;&lt;br&gt;2. Incorporating comments by GWP-Med and making necessary changes;&lt;br&gt;3. Production and distribution of the materials.&lt;br&gt;4. Delivery of electronic copies and hard copies to GWP-Med.</td>
<td>6 June 2020&lt;br&gt;13 June 2020&lt;br&gt;3 July 2020&lt;br&gt;Week of 13 July 2020</td>
</tr>
<tr>
<td><strong>4. Engaging media of local and national level</strong></td>
<td>1. Invitation of media to events;&lt;br&gt;2. Sending information note for the Drin Day 2020 celebrations to TV news, newspaper and web portals;&lt;br&gt;3. Uploading video on YouTube and disseminating it through social media;</td>
<td>1 July 2020&lt;br&gt;1 July 2020&lt;br&gt;Week of 6 July 2020</td>
</tr>
<tr>

<td><strong>DRIN DAY CELEBRATION EVENTS</strong></td>
<td><strong>WEEK of 6 July 2020</strong></td>
</tr>
<tr>
<td></td>
<td>1. Providing information to GWP-Med about activities of the Drin Day 2020 including photos as well as number of participants in</td>
<td>Week of 6 July 2020</td>
</tr>
</tbody>
</table>
### 6. Press release
- events, results of activities in numbers etc.;
- 2. Finalization of the press release by GWP-Med;
- 3. Translation of final press release to country language(s);
- 4. Sending press release after the Drin Day 2020 celebrations to TV news, newspaper and web portals;

| Timeframe | 2 days after the Main EVENT July 2020 |

### Reporting
- 1. Delivery of Report to GWP-Med including:
  - a. brief description of activities;
  - b. any specific information expressly requested by GWP-Med for reporting of activities;
  - c. all material and deliverables 1 – 6 above;
  - d. photos from the Drin Day celebrations;
  - e. any video produced.

| Timeframe | Week of 13 July July 2020 |

### Monitoring
Monitoring of activities will be realized on the basis of deliverables being finalized as specified under Deliverables.

### Timeframe
These activities should be implemented in the week of 6 July 2020.

### NOTE:
PLEASE NOTE THAT DUE TO THE SITUATION WITH THE PANDEMIC (COVID-19), ACTIVITIES FOR THE CELEBRATION OF THE DRIN DAY 2020 MAY BE POSTPONED FOR LATER THAN SCHEDULED IN THE TOR, DEPENDING ON WHEN CIRCUMSTANCES WILL ALLOW ORGANIZATION OF THE PUBLIC EVENTS.
ANNEX : SUSTAINABILITY

A sustainable event is one that is designed, organized and implemented with a view to minimizing its ecological footprint and maximizing its positive impact on society. To reduce the general impacts of our events or their ecological footprint, we should therefore always consider the life cycle when we organize an event, in order to identify the points that will have a bigger negative impact on the environment.

Below are listed some useful tips that should be used wherever applicable in order to minimize the ecological footprint of our event to the extent possible.

<table>
<thead>
<tr>
<th>Sustainability target</th>
<th>How</th>
</tr>
</thead>
</table>
| Reduce energy use and the resulting greenhouse gas emissions                         | ✓ Select venues and accommodation that implement energy efficiency measures, comply with green building standards and/or use renewable energy sources.  
✓ Choose locations and venues minimizing local and long-distance transportation needs for participants and products.  
✓ Where long-distance travel is unavoidable, offset GHG emissions.  
✓ Apply energy-saving office practices during the organisation and hosting of the event. |
| Reduce materials consumption and waste generation                                    | ✓ Minimize materials provided to participants and used by service providers (e.g. caterer, exhibitors), before, during and after the event.  
✓ Avoid the use of disposable items, use pre-used/ recycled and reusable/recyclable products and reduce packaging needs to a minimum  
✓ Separate and recycle waste where possible.                                          |
| Reduce water use                                                                     | ✓ Select venues and accommodation that implement water conservation practices and use water-efficient appliances.  
✓ Implement water-conscious measures such as avoid bottled water and re-filling glasses only upon request. |
| Reduce indirect environmental impacts on air, water and soil                          | ✓ Minimize the need to transport food and other products and favour local organic food.  
✓ Use products manufactured with or containing fewer harmful substances, such as chlorine-free paper and non-toxic cleaning products. |
<table>
<thead>
<tr>
<th>Increase the social benefits for all involved</th>
</tr>
</thead>
<tbody>
<tr>
<td>✓ Involves local and regional level as much as possible by, for example, recruiting local people (social integration), supporting SMEs (catering, energy, cleaning, IT supply, family-run accommodation), and showcasing successful local projects.</td>
</tr>
<tr>
<td>✓ Contributes to the Sustainable Development Goals and the core ILO Conventions through compliance with labour standards, and requiring social integration (reducing unemployment), Fair Trade products and social criteria along the supply chain.</td>
</tr>
<tr>
<td>✓ Assures security and health aspects (e.g., noise level).</td>
</tr>
</tbody>
</table>
