Question	Clarification
<p>Price noted includes VAT. Questions: Does the Contractor has valid EU VAT number? Can we understand if yes, then for EU VAT number holders the brutto price is net price. Can you confirm?</p>	<p>The Contractor has a valid EU VAT number: <i>EL097813422 which can be validated at:</i> http://ec.europa.eu/taxation_customs/vies/vatResponse.html The brutto and net price depends solely on the tax legislation where the bidder is registered.</p>
<p><i>Referring to page 10, Phase4/4.1</i> Question: Is the referred information on catastrophic flood event registered information and data available in geodatabase or in paper format ? or if partially, how much and what kind of data are available in digital format and how much and what types are in paper format?</p>	<p>This information is not available. Phases 1, 2 and 3 of the ToR (page 7 forward) describes the process for the collection by the consultant of available information necessary for the implementation of the project and filling up possible gaps.</p>
<p><i>Referring to page 17, session 44:</i> All data, reports, other documentation and the GIS files produced in electronic format should be compatible to the Drin project database and formats set by the Information Management System - IMS. Question: What data format is expected to be delivered to meet the compatibility directly? What GIS system relevance is to be taken into consideration (ARCGIS, QGIS or..)?</p>	<p>The Information Management System is now being developed; the format is to be specified in the following months and related information will be provided to the consultant prior to the initiation of activities for the implementation of the project.</p>
