

# Breakout sessions: group consultation on consolidating WEFE Nexus solutions

Mediterranean  
Action Plan  
Barcelona  
Convention

# QUESTIONS

- **What steps are needed to implement these actions?**
- **What are the resources needed (qualitative type of resources not quantifying) for targeted resource mobilization in Phase 2 Nexus Assessment, to inform donor engagement, create partnerships for future implementation of activities.**
  - Expertise / knowledge
  - Infrastructure, tools and technology
  - Financial (please think of different forms of financing instruments, such as cash grant, loans, in-kind including human resources, technology, services, equipment, products, etc.)
  - What is the best approach to manage funding for nexus solutions? Channel the funds to a common governmental-driven platform or keep it according to priorities of funding agencies?

# QUESTIONS

- **What actors/stakeholders are needed?**

## **Objective: create mapping ownership**

- To lead the activities:
- To support the activities: (such as knowledge brokers, technical assistance, etc.)
- **How to ensure that the implementation of this action is carried out in an inclusive and gender-sensitive manner?**
  - What do you think will be the key barriers women might face in participating in these actions?
  - What are the proposed solutions to enhance women's participation in the identification and implementation of nexus solutions?
  - Who shall be the key actors involved?

# GROUP 1

## **GOAL 1: ENHANCE ENERGY SECTOR'S PLANNING AND CLOSING THE ENERGY GAP**

**Objective 1: promote renewable energy use and  
energy conservation**

**Objective 2: support transparency and integrated  
planning in the energy sector**

# GROUP 2

## **Goal 2: Protect and Enhance Water Resources Management in Lebanon**

### **Objective 1: Promote groundwater recharge and protection**

# GROUP 3

## Goal 2: Protect and Enhance Water Resources Management in Lebanon

### Objective 2: Preparation of River basin management plans

# GROUP4

## **Goal 2: Protect and Enhance Water Resources Management in Lebanon**

**Objective 3: Adopt water saving measures and non-conventional water resources use**

# GROUP 5

## **GOAL 3: ENHANCE THE SUSTAINABILITY OF AGRICULTURAL PRODUCTION AND FOOD SECURITY**

**Objective 1: enhance agricultural planning at watershed  
level**

# GROUP 6

## **GOAL 3: ENHANCE THE SUSTAINABILITY OF AGRICULTURAL PRODUCTION AND FOOD SECURITY**

**Objective 2: promote sustainable agricultural practices  
and enhance food security**

# GROUP7

## GOAL 4: PROTECTION OF ECOSYSTEMS FROM ANTHROPOGENIC PRESSURES

**Objective 1: enhance forest management**

# GROUP8

## GOAL 4: PROTECTION OF ECOSYSTEMS FROM ANTHROPOGENIC PRESSURES
