Award Criterion - Evaluation of offers

Award criterion

The Award criterion is the most economically advantageous offer on the basis of best price / quality ratio. Offers shall be evaluated as follows:

In case of equality of overall scores, the retained offer is the one whose corresponding technical Offer received the highest rating.

Evaluation of Technical Offers

Each evaluation criterion is evaluated autonomously, according to the respective technical offer submitted. The relative scoring of each evaluation criteria is the outcome of its scoring multiplied by its weighting. The overall score of the technical offer is the sum of the relative scoring of all the evaluation criteria.

The overall score of the technical offer is calculated on the basis of the following formula:

$$\text{UTO} = w_1 \times c_1 + w_2 \times c_2 + \dots$$

where $w_1 + w_2 + \dots = 100$

For the overall score which will determine the ranking of offers, technical evaluation will be weighted with 70%.

Evaluation of the Financial Offer

Each financial offer is evaluated on the basis of the following formula:

$$UFO = 100 \times \text{max amount} / \text{financial offer}$$

For the overall score which will determine the ranking of offers, financial evaluation will be weighted with 30%.

Offers which have been rejected as inadmissible or as not meeting the minimum requirements shall not be evaluated.

Identification of the most economically advantageous offer on the basis of best price / quality ratio

The final listing of the most economically advantageous offers will be made on the basis of the following formula:

$$U = UTO \times 70\% + UFO \times 30\%$$

Where U is the total scoring if each offer

The most economically advantageous offer is the one with the greater value of U.
