

Who we are?

Like-minded and passionate individuals on rainwater harvesting from South Asia and other parts across the globe brought together under one umbrella by sustained efforts of the Lanka Rainwater Harvesting Forum, organizations in South Asia, and IRHA.

To:

- Collect evidence and make a case that RWH is a feasible solution to water scarcity, DRR, SDG 6 & Climate Change

So what?

- Over 160 members from 16 countries in 2 years.
- Sharing knowledge, skills, research findings, and success stories on RWH.
- Opportunity for networking and strengthening ties within countries.
- Active and engaging knowledge-sharing platforms website, social media platforms, 11 webinars, 2 international conferences, and participating in international events.
- Mobilising young professionals- Young Rainwater Champions
- Inspiring for change – more rainwater tanks, country-level efforts to network to share information
