

Sudan Youth Parliament for Water  
**SYPW**

# SYPW Activities 2019-2017

## Sudan Youth Parliament for Water (SYPW) Overview of the Activities (2019- 2017)

The International Secretariat of Water (ISW) initiated since 2002 and launched in 2012 the World Parliament of Youth for Water (WYPW) which, over the years, has established itself as a An inescapable representative of young people.

In Sudan, a steering committee was set up in September 2016 by young people in Sudan to set up the National Youth Parliament for Water, with a view to harmonize the vision of Sudanese youth on issues of water, sanitation and sustainable development. The main objective was to bring Sudanese youth together in a common structure enabling them to speak with one voice on Water and Sanitation issues.

Sudan Youth Parliament for Water (SYPW) is Sudanese Youth Network acting for water around Sudan at all levels: from local communities; where it implements concrete actions, to international water debates; where SYPW advocate for youth participation in the water sector.

SYPW was established in January, 2017, over the last 3 years SYPW implemented over 50 different activities that ranged from participating in national and international events related to water sector, implement number of educational and awareness programs inside and outside Khartoum , and conducted number of filed visits to many places in Sudan

# Field Visits

The main objective for the Field Visits is to increase youth involvement in water solutions and to encourage females to participate in the water sector

- ◇ **Field Visit No.1:** River Nile State Villages (Almaknia, Alhilila, Bagrosi and Alebidab): The main purpose was to Study the drinking water contaminations
- ◇ **Field Visit No.2:** Sirag Village - Khalwat Masabeeh Elhuda: The Field Visit targeted 1500 students, most of them are internal and external refugees
- ◇ **Field Visit No.3:** Khortagt: The main objective was to inspire, empower and mobilize young people in North Kordofan to contribute into the solutions of water problems
- ◇ **Field Visit No.4:** North Kordofan Villages: The main goal was to assess the water quality of 11 villages (25 wells) in North Kordofan State (Wad-Esaa, Ashaf, Waddayoum, Umasal, Mema-Aldekheary, Mema-Alzaky, Alrokab, Umhageer, Awlad-Ali, Aleheamrat, Algouze)
